DETAILED ACTION

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art or record fails to show or fairly suggest the combination as claimed including a slide fastener comprising a protuberant post, a hole for fitting engagement with a projection, through apertures formed centrally within the rotary plates with the projection and the post passing through the through apertures and inwardly-projecting rims formed on the peripheral edges of recesses formed within the rotary plates to retain magnets. The device as claimed is non-equivalent and substantially different from the prior art of record.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
